Waterwise purchasing policy

All businesses should endeavour to create a Waterwise Purchasing Policy as a vital part of the overall water saving practices that they employ. If you are unsure how to create this policy please use the example below as a guide.

Office at 123 Smith St, Jonestown

- Whenever we purchase new water using products, we will endeavour to only purchase products of a high Water Efficiency Rating.
- As existing water using products require replacement we will endeavour to replace them with products of a high Water Efficiency Rating.
- As our budget allows, we will undertake to replace existing water using products with products of a high Water Efficiency Rating.
- All purchases of water using products are approved by our company Water Champion who uses the government WELS scheme <http://www.waterrating.gov.au/> as a guide.
