

your garden watering roster

water for all, forever  **WATER**
CORPORATION

We all have a role to play in conserving our precious water resources.

Permanent water efficiency measures for scheme and bore water users are part of an overall effort to reduce our water use.

With over 40% of household water used outside the home, reducing your irrigation time is a simple and effective way to save water. To find out the recommended watering times for your irrigation system visit our website.

Remember to only water once on your watering day, either before 9am or after 6pm.

In addition to watering rosters, a permanent winter sprinkler ban also applies to scheme and bore water users in Perth, Mandurah and some parts of the south-west between 1 June and 31 August each year.

From time to time some parts of the State will experience unusually dry periods and may be subject to temporary water restrictions.

You can always find your watering roster on our website by simply supplying your postcode and street number.

Visit **www.watercorporation.com.au** or call **13 10 39** for more information.
